What to expect on first visit:

- Warm reception at the clinic by the doctor and assistants.
- Soothing music awaits you to calm your nerves along with the courteous team to alleviate your anxiety.
- Every patron visiting the clinic is first engaged in an informal pre-check discussion and handed over a form to fill in which medical history is evaluated, general terms and conditions are highlighted and informed consent to proceed for the checkup and treatment is recorded.
- Filling of form normally takes 15 minutes and is essential to help doctors evaluate the medical history prior to the examination in a comfortable set out of the operatory. Any information that is provided, is kept confidential. One can also download the [PDF version](#) of the form and present it on the first visit at the clinic reception.
- A comprehensive examination is done and base line dental status is recorded in the electronic health record system.
- Following the evaluation and recording of the details, the attending doctors engage the visitor in an in depth discussion about the treatment needs and prioritize the treatment in an emergency stage or in various phases over time.
- Post discussions and evaluation, informed consent is recorded and the treatment is commenced and subsequent appointments made, as per the merit of the treatment needs and time constraints.
- The team ensures, the every visit of the patron is made comfortable in all aspects with anxiety alleviation as a main focus.
